

Funding Strategy

- Tap existing even year Select Lines to circa \$4-\$4.5 billion.
- Build odd year fixed rate benchmark curve starting this financial year with a new May 2029 maturity.
- Supplement odd year buckets with AONIA FRN's, initially targeting \$3-3.5 billion in the odd calendar years.
- Will not issue 2024, 2025, 2026 or 2027 fixed lines, or 2025 FRN. Consider taps of the 2027 and 2029 AONIA lines.
- Consider longer dated non-benchmark issuance out to 30 years, now excluding the non-benchmark May 2040 line.
- Actively manage liquidity including being refinanced for a term maturity 12 months prior through asset purchases, and public buybacks of shorter dated lines.
- Deliver on ESG Strategic Project
- Provide markets with clear and transparent communication.
