

Funding Strategy

- SAFA is committed to transparency and investor engagement.
- SAFA intends to:
 1. Over time, target \$4 billion plus fixed rate maturities in May every year from 2028 to 10 years and beyond.
 2. Recent \$2 billion 4% 24-May 2029 issue completes SAFA's 23/24 borrowing program.
 3. Issue every two months.
- SAFA prefers syndicated issuance format periodically complemented by tenders.
- Will consider floating rate issuance based on collective investor demand.
- In general, SAFA targets 10% short term wholesale debt with 10% refinancing of long-term wholesale debt per annum. With 12 months pre-funding, this leads to circa 20% liquidity.
