

Funding Strategy

- Have undertaken pre-funding during FY2022-23 to manage refinancing risk
- Tap existing even year Select Lines to circa \$4 billion initially, building to \$4.5 billion in future years
- Supplement existing fixed rate odd years (2025 / 2027) with AONIA FRN's, initially targeting \$3 billion in each maturity bucket, building to \$4-4.5 billion in future years
- In FY2023-24 consider issuing new odd year fixed rate lines into the 2029 maturity and beyond, supplemented with AONIA FRN's
- Consider longer dated non-benchmark issuance out to 2052
- Actively manage liquidity including being pre-funded for a term maturity 12 months prior
- Review debt issuance methodologies including consulting on implementing reverse enquiry
- Provide markets with clear and transparent communication.

Fixed and Floating Rate Term Outstandings (\$m)
