

Funding Strategy

- Tap existing even year Select Lines to building those liquid benchmark lines to approximately \$4.0 billion. AONIA-Linked floating rate notes will be intended to supplement all existing odd year maturities to manage refinancing risk.
- Issue a new May 2038 fixed rate Select Line bond and a new June 2027 AONIA-Linked FRN during FY2022-23.
- Extend the maturity profile of SAFA's debt out to 30 years in even calendar year maturities if market conditions, investor appetite and client borrowing requirements align.
- Continue to be 100% funded for a term debt maturity 12 months prior.
- Provide markets with clear and transparent communication.

Fixed and Floating Rate Term Outstandings (\$m)
